3 June 1969

MEMORANDUM FOR: Chief, PPS, TSSG

ATTENTION :

SUBJECT : Justification for [] Additional Funding in
Miscellaneous Services for FY-70

1. For FY-70 we have requested an additional [] for Miscellaneous Services. This funding will be utilized to obtain (1) an Electronics Consultant, and (2) a Computer Consultant along with (3) an additional [] for Quick Reaction Investigations. These are new areas for FY-70 and are a direct result of a shift in emphasis toward research and reflect efforts to establish a new technological base in response to new and advanced acquisition systems --primarily real time. The consultants will be utilized to bolster our own knowledge in certain highly specialized areas involving computers and electronics. This requirement results from the fact that exploitation equipments and systems are becoming more and more complex and sophisticated and tend to interface with computerized systems. The [] for Quick Reaction Investigations will be utilized to run brief studies, evaluate and/or develop minor electronic, mechanical or optical components or acquire short but significant advisory services in unique areas of technology, such as lasers, plasma displays, cathode ray tubes, electron beam recording and other areas as yet unanticipated which may result from our inquiries into real time systems.
